

# Advanced Methodology: Take the Next Step

## Dublin CES: Advanced ALM

### Course Overview

In this course, we will look at a number of critical areas essential for the development of an experienced teacher. The course is based on the Equals Teacher Development Framework, which provides a clear step by step journey in the development of the required teacher competencies.

### Course Aims

The aim of this course is to encourage critical reflection on key teacher competencies and create self-development pathways towards professional growth. This course will hope to afford teachers the opportunity to reflect upon this practice and experience and seek to create logical bridges in competency.

### Who is this course suitable for?

This course is suitable for teachers who have at least 5 years' experience. We will incorporate a range of reflective exercises so some experience is essential.

### What is in this course?

In this course, we blend practical and theoretical tasks. Once we have reflected upon our needs and interests, there will be a number of input sessions on pedagogy from which the next stages of our discussion can begin.
