### New 2024 Tech-Enhanced Creative Teaching Strategies: Merging Creativity and Technology

- 

- 

- 

Are you ready to embark on a transformative journey in the world of education?

Welcome to "Tech-Enhanced Creative Teaching Strategies: Merging Creativity and Technology," an innovative course designed to empower educators like you with cutting-edge tools and strategies that will revolutionise your teaching approach.

#### **About the Course:**

In today's dynamic and technology-driven educational landscape, creativity and technology are no longer optional; they're essential. This comprehensive course is designed to help you harness the power of modern technology to create engaging, dynamic, and effective learning experiences for your learners.

What You Will Learn:

Over the course, you will explore:

- The integration of Artificial Intelligence (AI) as a teaching and learning tool.
- Leveraging multimedia (video and audio) to enhance classroom engagement.
- The flipped classroom model and its practical implementation.
- Mastery of presentation tools, including creating digital storybooks, interactive posters with QR codes and barcodes, dynamic slides, and interactive quizzes.

Why Choose This Course:

Our course is not just about theory; it's about hands-on, practical application. You'll have the opportunity to develop your own tech-enhanced lesson plans, collaborate with fellow educators, and receive personalised feedback from experienced instructors.

**Who Should Attend:**

- Educators eager to modernise their teaching methods.
- Professionals interested in the intersection of technology and education.
- Anyone looking to enrich the learning experiences of students in innovative ways.
- Course Details:
- Mode: Interactive workshops, discussions, and practical exercises.
- Certification: Upon completion.

Join us on this exciting journey to become a Tech-Enhanced Creative Teaching Maestro. Explore the possibilities, embrace innovation, and unlock the full potential of your teaching abilities.

Ready to merge creativity and technology for a brighter future in education? Let's get started!

**Sample Course outline**

**Day 1: Introduction to Tech-Enhanced Creative Teaching and Media Integration: Video and Audio**

**Day 2: Leveraging AI in Education**

**Day 3. Offsite Training Day**

The aim of the offsite training day is to provide participants with an opportunity to compile media and information, in preparation to put into practice knowledge acquired and create materials that can be showcased at the end of the course.

Learner Objectives:

By the end of the offsite training day, participants should be able to:

1. Gather and organise multimedia resources such as videos, audio clips, images, and digital materials.
2. Create or refine presentation materials, including digital storybooks, interactive posters, dynamic slides, and interactive quizzes, as applicable to chosen topics or projects.

3. Organise information and content in a structured and coherent manner to effectively convey key concepts and ideas to their audience.
4. Begin integrating the creative teaching strategies and technology tools learnt into materials, ensuring alignment with teaching objectives.
5. Collaborate with peers during the offsite training day to receive feedback and suggestions on materials, fostering a supportive and collaborative environment.

**Day 4: Presentation Tools and Digital Storytelling**

**Day 5: Course Conclusion and Dissemination Showcase**

**Day 6: Interactive Posters and QR Codes**

**Day 7: Dynamic Slides and Quizzes**

**Day 8. Offsite Training Day**

**Day 9: Media and Technology Integration in Teaching Practice & The Flipped Classroom Model**

**Day 10: Course Conclusion and Dissemination Showcase**

**COURSE SPECIFICATIONS**

Number of Training Days:	10
Class Size:	Maximum 12
Minimum Language level:	B1
Suitable for:	teachers (primary, secondary, higher education)
