A Self-Placement is when one of your students already has a family willing to host him/her in the United States for the length of their program. However, the placing organization must still check references, visit the school and meet the family before a final decision can be made on all self-placements. If the self-placement request and/or application is received after the deadline and the self-placement is not possible, there is no guarantee that the student can be accepted as a regular AYP student.

Please fill out this request form in order we could start the process and check the self-placement. You will be informed of the result as soon as we will reach a potential host family and school.

In addition to emailing or faxing this form to the office, it **MUST** also accompany the full application of the student.
